SUPPORT OF BUSINESS PROCESSES WITH PLUS WORKFLOW IN COLAS

COLAS, A GLOBAL LEADER IN THE ROAD INDUSTRY, HAS BEGUN ITS ACTIVITY ON THE POLISH MARKET IN 1997. CURRENTLY, IT OPERATES AND DEVELOPS ITS ACTIVITY THROUGH TWO COMPANIES: COLAS POLAND – ROAD SECTOR, AND COLAS KRUSZYWA – EXTRACTIVE SECTOR. THANKS TO A HIGH QUALITY AND THE USAGE OF MODERN

TECHNOLOGIES, COLAS BECOMES INCREASINGLY RECOGNIZABLE ON THE POLISH MARKET. THE ACCESS TO SPECIALIZED KNOWLEDGE, THE COMPANY'S EXPERIENCE, AS WELL AS HIGHLY DEVELOPED TECHNOLOGICAL FACILITIES, CONTRIBUTE TO PROVIDING NEW OPERATING METHODS AND SOLUTIONS, WHICH ONLY STRENGTHENS THE COMPANY POSITION.

APPLIED BUSINESS AND TECHNICAL SOLUTIONS

The implementation of the Plus Workflow system was aimed at enhancing key business processes in Colas company. The scope of the project included the establishment of the changes concept as well as the implementation of the Plus Workflow system for electronic document flow. The implementation of the Plus Workflow system concerned 3 processes: construction orders, reception of goods and services, and flow of cost invoices. The system includes many improvements facilitating its operation and controlling the quality of the entered data. Moreover, in order to simplify the employees' work, Suncode's solution has been integrated with Coda and Unisoft systems used in the Colas company. Currently, the system is used by several dozen people in everyday work in various locations throughout Poland.

The benefits from the usage of the Plus Workflow system might have been noticed shortly after the implementation, and included, for instance, reduction of the labour intensity and, therefore, a decrease of the costs related to the processes.

Suncode's consultants proved their high professionalism and immense involvement while modeling the business processes and suggesting suitable IT solutions. Through the project, Suncode's consultants were open to any remarks and flexibly reacted and reflected them in a system configuration. Moreover, after the implementation, Suncode offers ongoing technical and business support.

Bartosz Sadowski, IT manager.
